Introduction

Charging made easy

This charging dock is designed exclusively for your Xperia™ smartphone so that you can charge the phone without having to open the USB cover. The dock positions your phone at a comfortable viewing angle so that you can easily browse content while it's charging.

- 1 Charging dock
- 2 Attachments for holding phone in place

Using the Magnetic Charging Dock

Using the attachments

Your accessory comes with two attachments of different width. Each attachment can fit into the charging dock and hold your phone in place while you charge it. Use the attachment marked with an "A" to attach a phone without a casing. If your phone has a protective case, use the attachment marked with a "B".

- ! Attachment B may not be compatible with all protective cases.

Charging your phone

To charge your phone using the Magnetic Charging Dock

- 1 Plug the charger cable into the charging dock. Then plug the charger cable into your phone charger and plug the charger into a power outlet.
 - 2 Insert the required attachment into the charging dock.
 - 3 Place your phone in the dock so that the connectors on the side of the phone make contact with the connectors in the dock. The phone now starts to charge.
 - 4 If the Smart Connect pop-up window appears, follow the instructions to enable a pre-configured set of actions.
- ! Your phone does not charge if you plug the charger cable into the USB port of a computer.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Any change or modification not expressly approved by Sony may void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Statement

This device complies with RSS-210 of Industry Canada.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Avis d'industrie Canada

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et, (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
